Brief Directions

Seam allowances are 1/4" (6mm) unless otherwise stated.
Please watch the Full Video Tutorial along side the below instructions for thorough demonstration, and to avoid any confusion.

1. Install the 10" zippers to create the pockets.
2. Fold the side panels in half lengthwise and press.
3. Attach the side panels to each side of the interior panel, matching the notches with the bottom seams of each pocket in the same order. Repeat for the opposite side.
   Note: Use a 3/8" (1cm) seam allowance when attaching the side panels to the sides of the zipper pockets.

4. Apply fusible fleece to the wrong side of the exterior panel following the manufacturer's instructions. If using batting, place it on the wrong side of the exterior panel and quilt as desired.
5. Install the handles.
6. With wrong sides facing, pin the long edges of the exterior and interior panels together. Sew using a scant 1/4" (5mm) seam allowance.

7. Make the binding strips
8. Bind the side edges.
9. Baste the top edges using a 1/8" (3mm) seam allowance.
10. Install the zipper closure along the top edges of the bag. Then, bind along the edges of the zipper and the top edge of the bag.
11. Sew the zipper tabs to both ends of the zipper.
12. Sew the ends of the zipper tabs to the bottom center of the side panels.

Your bag is done!

NOTES

- *After cutting each panel from the pattern piece, immediately transfer and cut all the notches and marking lines.*
- *If your fabric has directional print, do assessment before cutting to achieve the desired look.*
- *When stitching bulky layer, switch your needle to a larger one (e.g. denim needle size 100/16), and increase the stitch length.*
- *Always use disappearing fabric marker or chalk marker when marking on the fabric.*
- *Watch the full instructions in the video tutorial https://youtu.be/ju47a3--ZgU*
